OTHER EVIDENCE: Describe corner location relative to nearby features and how to reach the corner location – note fences, roads, timber cutting lines, mow lines, clearings, plantings, streams, topo changes, etc.

The Monument is an offset corner with Wash_I25. Both are situated between barbwire fence on the south and a series of signs that state that there are buried communication lines on the north. Both monuments are on the north side of Wiley Road. Blm_I01 can be seen from the road. It is on a steep hill framed by barbwire. Approximately 50' further east on Wiley Road, there is a trail of riprap that provides better footing.

MONUMENT PRESERVATION: Describe work done to preserve existing monument.

Geodetic coordinates were captured for the monument and the fencepost (Witness A) along with a series of metal fencepost that lead from Wiley Road up the hill to the monument and beyond towards Wash_I25. "Protect Nearby Survey Marker" was nailed to the NE side of a bifurcated white oak, 4' above grade (Witness F)

THEORY OF LOCATION: Describe the theory of location for acceptance of this monument. Include monument origin and associated uncertainty.

The stone was previously witnessed by the Monroe County Surveyor, Kevin Enright, on December 26, 2007 and accepted by the Monroe County Surveyor Review Board on January 15, 2008. The 2008 Monument Record accepted the stone per a survey by Michael E. Sheppard, Alta/ACSM Land Title Survey (2007) recorded as Instrument Number 2007012507.IN.
